About Me

A passionate individual with a strong interest in AI, Machine Learning, and gaming. I am eager to explore these technologies and develop a deep understanding of their complexities. I thrive in problem-solving and teamwork, creating innovative projects.

Education

Chaitanya Bharathi Institute of Technology, Gandipet, Hyderabad
B.E. in Information Technology   **CGPA: 9.48**
Graduate May 2027

Sasi Junior College, Velivennu, Andhra Pradesh
Intermediate - MPC   **Total Marks: 983**
March 2023

St. Ann's EM School, Tadepalligudem, Andhra Pradesh
Secondary School   **GPA: 9.8**
March 2021

Technical Skills

Programming Languages: Python, Java, SQL
Libraries and Tools: Matplotlib, Pandas, Numpy, OpenCV, AutoCAD
Computer Science Fundamentals: Data Structures, Object-Oriented Programming, Operating Systems

Projects

MERN-Based Placement Portal
Developing a full-stack placement portal using the MERN (MongoDB, Express.js, React, Node.js) stack.Where admin filters the students based on certain conditions and the mail is automated to filtered students. Integrated AI to give suggestions to the Students based on the description of the job and thier resume.
Online Train Ticket Booking System
Developed a basic train ticket booking website using HTML, SQL, and JDBC (Servlets). The project includes authentication, train selection, seat selection, and more.

Certifications

- **Joy of Computing - NPTEL** View Certificate
- **5-Star Python Programmer - HackerRank** Profile
- **Microsoft AI Azure Fundamentals** View Certificate
- **Salesforce AI Associate** View Certificate
